

## Product Profile

**SSW Merge PRO! merges two different databases of different formats and structures into one.**

**Prior to merging SSW Merge PRO! checks for duplicate records , allowing you to determine which records you want to add into your database.**

## What our users say:

*"Over the years we accunulated many prospect lists. SSW Merge PRO! made it easy getting them all into one database."*

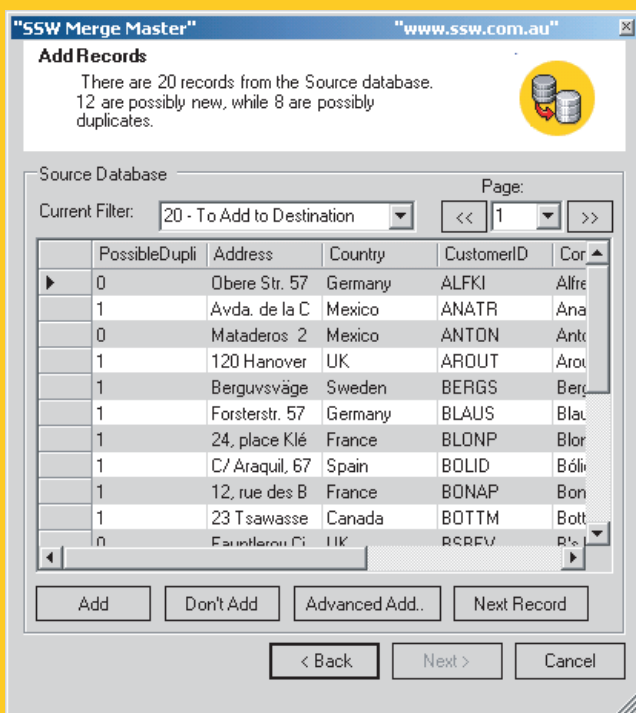

*Robert Battle - Sydney Australia*

### SSW Company Profile

Established in 1990, Superior Software for Windows (SSW) loves working with new technology to deliver the best, most advanced solutions using Microsoft ASP.Net, VB.Net, Access, SQL Server, XML, Exchange Server and SharePoint Portal Server.

SSW develops database utilities for Access and VB developers that are available for download from our website.

SSW was the first company in Australia to deliver a commercial .NET solution and offer .NET hosting services.

- Built on VB.NET
- Source code included in the price!
- Select the two databases
- Review suspected duplicates
- Add the new records
